JORDY is not designed to restore vision, correct eye conditions or halt degenerative vision loss. A vision professional can determine the suitability of the JORDY for a patient's individual condition. JORDY is designed to be worn while sitting, and is NOT intended to be worn while walking, driving or during mobility of any kind.

JORDY™

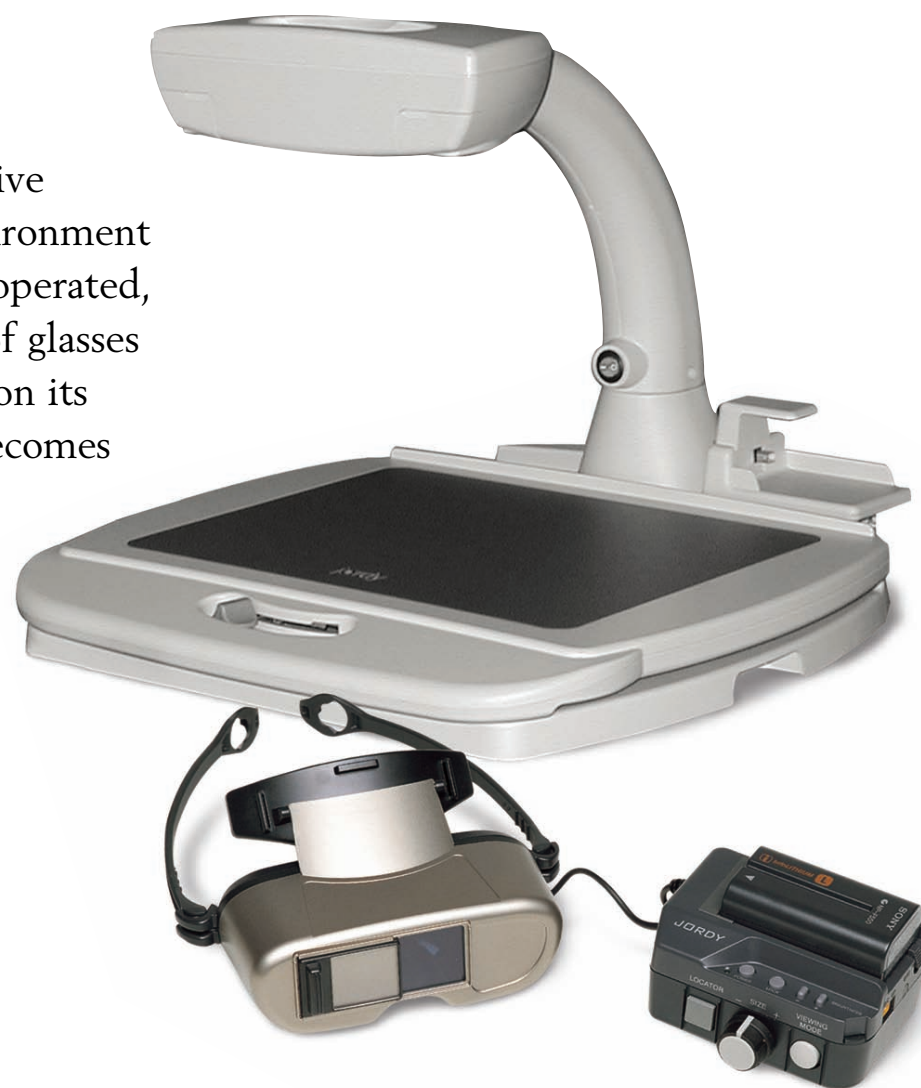

Two Low-Vision Systems In One!

With JORDY you can read the book AND see the movie.

This innovative system is the ideal solution for your active lifestyle, enabling you to read, write, and see in any environment including work, home, and school. JORDY is a battery-operated, full-color portable system that can be worn like a pair of glasses to see near, far, and anything in-between. When placed on its optional desktop stand and attached to any monitor, it becomes a fully functional desktop video magnifier.

JORDY features include:

- Magnification range up to 30x
- Auto focus which keeps images in clear, bright focus
- Extremely lightweight and portable
- Proprietary high-contrast wide field-of-view
- Four viewing modes: full-color, black and white, high-contrast positive and negative
- Digital zoom provides ability to magnify and view faces of loved one's, objects, or any image instantly

Optional desktop stand features include:

- Magnification range up to 50x
- Extra large working space with locking table
- Built-in lighting system increases image brightness and contrast
